

2610

The Tally Dascom 2610 is a highly featured, reliable and stylish machine. Performance and workload, ergonomics, maintainability, excellent price – everything has been incorporated to ensure it is the only acceptable choice for the business users.

Continuous and cut forms are fed from the front for quick and easy loading. This ensures a straight path for the forms resulting in reliable paper transportation, even on 6-part stock. Loading paper is easier; the operator does not have to fumble over or around the printer to gain access to rear located tractors.

Highlights at a glance:

- Print speeds **up to 667 cps**
- **20,000 pages per month** workload
- **136 columns**
- **24 pin print head** produces excellent print quality
- **9-Pin emulation** to replace printers on old legacy systems
- **Straight through paper path** for easy forms loading
- Ethernet, parallel and USB interfaces **as standard**
- **LC Display** for easy operation

User intervention is kept to a minimum with a suite of features designed to ensure the products run at optimum reliability and performance.

The product is at home in the computer room, data processing room, warehouse, manufacturing floor or in the office. An unobtrusive 55 dBA acoustic rating results in a printer, which is double as quiet, compared with many competitive models.

With the build-in Epson FX emulation this printer is also able to replace old legacy 9-pin printing systems.
