

T2N Desktop Printer End of Sale

October 1st, 2019

Printronix Auto ID is announcing the end-of-sale for the T2N desktop thermal printer.

The last order date will be December 31st, 2019. Technical support, spare parts, and consumables will continue through December 31st, 2024.

The replacement product for the T2N is the T4000 industrial printer which offers 4in 203 / 300 dpi thermal transfer printing. The highlights of this product are:

- **Productivity:** Print speeds up to 10 inches/second, high print volume, and easy loading of 8in label roll and 450m ribbon
- **Versatility:** Compact design with bifold door, intuitive operation, featuring the Printronix System Architecture (PSA) platform supporting nine competitor print languages and enterprise level remote management tools. In addition, The T4000 offers an RFID encoding option including support for both standard RFID labels and on-metal RFID tags.
- **Dependability:** Rugged all-metal frame construction, high MTBF, and wide operating temperature range.

The following is a partial list of T2N part numbers and the equivalent T4000 replacement part numbers.

T2N Part Number	T2N Description	T4000 Part Number	T4000 Description
TT2N2-10-0	T2N,4IN,203DPI,AMERICAS	T42X4-100-0	T4000,4IN,203DPI,AMERICAS
