

TallyGenicom TechNote GEN-03

Using Non-Specified Media and Dye Sublimation Toners

Models:

All TallyGenicom branded color laser printers

Summary:

This tech note addresses

1. The increased use of, and interest in using, non-specified media and sublimation toners in TallyGenicom's line of color laser products.
2. The use of ink jet paper in all TallyGenicom laser printers, both mono and color models.

Warranty Issue 1:

The use of sublimation toners and transfer paper in TallyGenicom Color Laser Products.

Any use of non-specified media or toner in TallyGenicom Color Laser products may void your warranty.

The following media types have been tested and specified for use in the TallyGenicom Color Laser Printers:

- Plain Paper - 18-24 lb bond (simplex & duplex)
- Thick Stock - Simplex 43 lb bond (90 lb index) Duplex 28 lb bond

The toners warranted under TallyGenicom specifications are the toners that ship with these products.

The use of any other media types and toners in these products may void your warranty.

Warranty Issue 2:

The use of paper, labels stock and other non-laser rated media (for example media intended for copiers and Ink Jet printers) in all TallyGenicom Laser Products both color and mono models.

Use of non-laser rated media types may void your warranty.
