Cognitive Advantage DLX	yes	yes	yes	yes	yes	yes	yes	yes	CPL	Microsoft	with OS	7005
PCL6	yes	yes	yes	yes	yes	yes	yes	yes	PCL	Microsoft	with OS	All Laser printers

NOTE1: Some of the drivers will **not** be availbe **until** you have clicked the "Windows Upate" button in the "Add Printer" wizard.

NOTE2: Windows 8 and Windows 8.1 in 64 bit version do not allow the use of unsigned printer drivers. For Windows 7, you can allow the use by clicking on the info window.

NOTE3: Blue Color - Available in the Windows Microsoft Update Catalog.

NOTE4: This overview dows not claim completeness nor does it claim to be without failures. Kindly inform Technical Support if you find any flaws in this list. If you have further proposals let us know as well

NOTE5: No Epson ESC/P2 Barcode. MTPL (Tally Printer Language) Barcode is included.

NOTE6: Version numbers refer to issuing date of this list. For newest version check the support pages in the internet under www.dascom.com.

We intend and will continuously add new perceptions in order to provide you with complete information
